Dear Annelies Paris,

Your checklist (Postnatal OCD and the potential impact on infant bonding) has now been reviewed and APPROVED in line with [BU's Research Ethics Code of Practice](#).

You can now save and/or print off a hard copy of the checklist at <https://ethics.bournemouth.ac.uk>.

This approval relates to the ethical context of the work. Specific aspects of the implementation of the research project remain your professional responsibility.

It is your responsibility to ensure that where the scope of the research project changes, such changes are evaluated to ensure that the ethical approval you have been granted remains appropriate. You must re-submit for ethical approval if changes to the research project mean that your current ethical approval is no longer valid.

Students – if the scope of your research changes, please discuss with your Tutors/Supervisors before submitting a new checklist.

Many thanks

For UG/PGT enquiries – please contact your Supervisor in the first instance
