

MUMS NEEDED FOR SURVEY!

Who can do the survey?

- Are you over 18?
- Have you been diagnosed or ever experienced symptoms of postnatal OCD?
- Did these symptoms occur while your child was under 2 years of age?

If the answer is yes, you are eligible for this survey

What is this survey about?

This study aims to investigate how the experience of postnatal OCD might impact on mothers' perception around bonding with their infant. You will answer a few open ended questions.

The questionnaire will take no longer than 30 minutes.

Thank you for your participation
