

Would you like to volunteer for a study?

This University of Oxford study is investigating the relevance of **betrayal experiences in mental health**

We are looking for three types of participants:

- 1) **Healthy volunteers** with no history of a psychological disorder
- 2) Participants that have been diagnosed with **Borderline Personality Disorder**
- 3) Participants that have been diagnosed with **Obsessive Compulsive Disorder**

*You must be able to speak fluent English and be over 25 years old. All data collected will be anonymous and kept confidential.

What's involved?

- Completing a number of online questionnaires (it will take approximately 60 minutes of your time)

Why take part?

- It is hoped that results from this research will increase our understanding of betrayal experiences on mental health, which could lead improved and more effective treatment
- In acknowledgement of your time, we would like to donate £2 to your choice of either OCD UK, or Mind

For further information and to participate, please visit the study website:
