Ethical approval for: 200240198

December 16,

Project Title: "I'm a little bit OCD": the effect of film and TV portrayals of obsessive-compulsive disorder (OCD) on the self-esteem of people living with the disorder.

Lead Researcher: Dr Zayba Ghazali-Mohammed

This is to confirm that the College of MVLS UG/PGT Ethics Committee has reviewed the above application and **approved** it. Please keep this letter for your records. **Approval for this project is until 23rd April 2025.**

There were three minor suggestions that I had for the project, that you may choose to include before recruiting. However, it is also fine not to include them and is not a requirement of approval:

- Including a brief description of how participants can ask for their data to be removed after interview (e.g. by contacting the researcher by email). (Information Sheet and Consent Form)
- Including who is funding the vouchers in Section 4 of the Information Sheet
- Changing the retention period from 10 years to indefinitely in the privacy notice (in the 'How long do we keep it for?' section).

Good luck with your research.

Sincerely,

Dr Ashley Robertson
