

## **Living with Obsessive-Compulsive Disorder: Experiences of everyday language**

### **SEEKING PARTICIPANTS FOR A PSYCHOLOGICAL RESEARCH STUDY !**

Obsessive Compulsive Disorder (OCD) is a serious mental health condition involving intrusive thoughts (obsessions) and repetitive behaviours (compulsions) that are carried out to relieve distress.

**STUDY AIMS:** to explore how people living with OCD experience casual language relating to their difficulty (e.g. people saying “I’m so OCD”) when it is used by other people in their everyday lives.

#### **Seeking participants who:**

- have received an OCD diagnosis from a Healthcare Professional at any point in your life.
- live within the UK.
- are aged over 18.
- currently feeling well enough to talk about their experiences & not going through a period of psychological distress.

**To take part in a 40–60-minute online interview**

To know further information and/or partake in the study, please follow the link:
