FAMILY FACTORS IN OCD RESEARCH

**Do you identify OCD to be your main difficulty and have a loved one who can also take part in our study?
We would love to hear from you!**

Hi! My name is Saba, I am a Trainee
Clinical Psychologist at
The University of Bath :)

What is this research about?

Our study aims to explore the relationships between family factors and OCD, including relationships, experiences with uncomfortable situations, and living with OCD.

Who can take part?

We are looking for **two people** over the age of 18:
1) one who identifies as experiencing OCD and
2) a loved one and / or caregiver who has lived with them or still lives with them in the past year.

What will participation involve?

**Both people will be asked to complete an online questionnaire which may take up to 20-30 minutes.
Each person will receive a £5 cash reimbursement via Paypal for their time.**

Interested in taking part?

Join us in contributing to this important research and helping understand the family dynamics of living with OCD!
